

Convert stereo to 3D audio via AI for all vehicles, smart phones, speakers, soundbars, TV, and home sound systems

Generative AI Restores 3D Sound Field to Music

# 3D SOUNDSTAGE AUDIO

- Convert stereo to 3D audio using AI and VR.
- More vivid, exciting, and directional audio than stereo, spatial, surround, and others
- EQ on respective vocal and instrument sound
- Software for real-time & embedded systems
- No remastering, no multiple channel coding
- No licensing for surround sound formats
